

### Classic Fertilizer Spreader Double Disc 600-800-1000- Lt

Fertilizer spreaders can be used in farms, fields and gardens.

Fertilizer capacity in single disc: 400, 500 and 600 liters and double disc: 500, 600, 800 and 1000,1200,1500 liters.

Fertilizer spreaders mounted to the Tractors through three point linkage system.

It is powered by throughout a rod by tractor PTO and linked up by spreader discs and smashers in the tank.

With the action of the output rods the discs turns and the fertilizer are spreading by the discs.

The Smashers duty is to avoid the fertilizer to become lump and flowing continually.

It spreads fertilizer to furthest point in balance with the wings.

It spreads to the left, to the right, or sides.

Through specially designed The outlet holes are provided on both sides equal fertilization.

Spreading degree can be easily adjusted by means of the mechanical lever and hydraulic lift.

Hydraulic setting system by means of the tractor can be optionally set by the amount of fertilizer.
