

Classic Mouldboard Plough are manufactured in 2, 3,4,5 body. Chassis sizes: 85x25, 85x28 and 90x30 mm options. Body intervals: 60 and 85 cm options. Body Sizes: 10, 12, 14 and 16 inch options. The primary purpose of ploughing is to turn over the upper layer of the soil, bringing fresh nutrients to the surface, while burying weeds, the remains of previous crops, and both crop and weed seeds, allowing them to break down. It also provides a seed-free medium for planting an alternative crop. Balanced and smooth driving ability with its wheel, and its coulter options are some of the main features of our product. By safety system of the plough, being damaged rate is reduced at the lowest level.
